

TTG CE4 CRG Changelog

v6.1.3a Hotfix (in development)

- Fixed an error that would crash single-image pages when social sharing is enabled.

v6.1.3 (2016-01-06)

- Fixed an issue with color labels in published albums.
- Server compatibility improvements PHPlugins script.
- Fixes filtering of CRG-only albums in client album assignment

To update to CRG 6.1.3:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom
 - Replace the **ttg-be/crg/application** directory
 - Log in as admin to **ttg-be/crg/admin**
-

v6.1.2 (2015-10-28)

- Fixes a cosmetic issue when browsing images in comparative view, preventing duplicate checkboxes appearing on an image when a second large-view presentation passes by that same image.

To update to CRG 6.1.2:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom
 - Replace the **ttg-be/crg/application** directory
 - Log in as admin to **ttg-be/crg/admin**
-

v6.1.1a (2015-10-03)

- Fixes issue with ratings sticking in web page after clicking cancel

To update from CRG 6.1.1:

- Replace the file **ttg-be/crg/lib/js/jquery.ttgcrg-ce4.js**

To update from earlier versions of CRG:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom
 - Replace the **ttg-be/crg/application** directory
 - Replace the **ttg-be/crg/lib** directory
 - Log in as admin to **ttg-be/crg/admin**
-

v6.1.1 (2015-09-11)

- Photos with a rating may now be unrated by clicking the current rating star again. i.e. If a 3-star image, click the third star to remove the rating; clicking any other star will update the rating to that value.
- Patched a security vulnerability in the download.php script.

To update to CRG 6.1.1:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom
 - Replace the **ttg-be/crg/application** directory
 - Replace the **ttg-be/crg/lib** directory
 - Log in as admin to **ttg-be/crg/admin**
-

v6.1.0 (2015-06-10)

- Added support for tokens in email subjects: [FEEDBACK_NUMBER], [CLIENT_NAME] and [CLIENT_EMAIL] for vendor emails, and [FEEDBACK_NUMBER], [COMPANY_NAME] and [COMPANY_URL] for client emails.
- Added support for client email customisation. Text can be provided for both the intro and outro, with support for Markdown and tokens: [FEEDBACK_NUMBER], [COMPANY_NAME], [COMPANY_URL] and [VENDOR_EMAIL]
- Added Select All / Select None functionality. To use this function, add links to the page copy, such as `Select All` and `Select None`
- Client-managed galleries can be viewed when logged in as TTG BE admin. Requires Publisher 2.3.0 or newer.
- Added a field to Feedback Profiles for limiting the number of allowed selections. Note that use of the 'Select All' function bypasses this limit.
- Client mode is now independent of whether feedback is enabled. CRG galleries that do not have feedback enabled can now be assigned to clients.
- Added Enhancements to settings page: info icon now appears on view settings page, support for Markdown and support for multi-row settings
- Fixed an issue where feedback was not automatically enabled when changing from a non-CRG template to a CRG template in Publisher.

- Added transitions when navigating large images in the Highslide Comparative presentation mode; this provides a smoother browsing experience.
- Fixed Map Type option for Google Maps.
- Fixed social media image references when using gallery as Home page via CE4 Pages and Publisher.
- New option in Highslide Comparative presentation, "Align opened images to screen center".
- Removed 'minimal-ui' switch for iOS 7, as it is no longer supported in subsequent versions of Safari.
- Repaired the Masthead's "Separation" slider, which controls the space between the H1 and H2 headings.
- Updated to jQuery 1.11.3 from 1.11.0.

To update to CRG 6.1.0:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom

- Replace the **ttg-be/crg/application** directory
 - Replace the **ttg-be/crg/config** directory
 - Replace the **ttg-be/crg/lib** directory
 - Log in as admin to **ttg-be/crg/admin**
-

v6.0.5 (2015-04-27)

- Fixed issue of selected options not being set correctly when providing feedback for multiple items. [#p29114](#)
- Added full path to album in Client-Album assignment page. This helps differentiate between albums that share the same title.
- Increased the standard “width_in_digits” value for UI sliders from 4 to 5, to better accommodate slider values to the thousandths' place.
- Removed 'minimal-ui' switch for iOS 7, as it is no longer supported in subsequent versions of Safari.
- Updated apple-touch-icon.png to 180-pixels-square, in accordance with Apple's UI guidelines for the iPhone 6 Plus, etc.
- Updated currentPageURL() function. [#p28183](#)

To update to CRG 6.0.5:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom
 - Replace the **ttg-be/crg/application** directory
 - Replace the **ttg-be/crg/lib** directory
 - Log in as admin to **ttg-be/crg/admin**
-

v6.0.4 (2015-02-26)

- Corrected the default copy for the icon legend; switched the fa-ban and fa-circle-o icons to correctly reflect their placement in the gallery.
- Maps support, by request.
- Fixes an issue of feedback not functioning in galleries with empty cells

To update to CRG 6.0.4:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom
 - Replace the **ttg-be/crg/application** directory
 - Replace the **ttg-be/crg/lib** directory
 - Log in as admin to **ttg-be/crg/admin**
-

v6.0.3 (2015-02-06)

- Changed the “Show All Images” icon in the status bar to avoid potential confusion with the same icon being used elsewhere to represent an unselected image.
- Checkboxes in Highslide Slideshow and Magnific presentations now inherit color properties from presentation UI Color and Color :hover by default; can be overridden using CRG options. Highslide Comparative still inherits grid icon colors.

- Fixed current item color in status bar.
- Fixed linear-gradients not being correctly applied to thumbnail cells outside of Lightroom's preview.
- Added photo count next to All Images and Selected Images in feedback details
- Added client email address as Reply-to for emails send to photographer
- Fixed an issue with images matching selected Options not appearing in feedback details
- Added a more helpful error message when the 'crg' directory has not been uploaded into 'ttg-be'

To update to from CRG 6.0.2 to CRG 6.0.3:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom
 - Replace the **ttg-be/crg/application** directory
 - Log in as admin to **ttg-be/crg/admin**
-

v6.0.2 (2015-01-25)

- Added localization options for icon tooltips in the status bar, found under Output Settings > Status Bar.
- Fixed color issue with current item in the status bar. [#p26290](#)
- Moved status bar styling out of shared resources, into the gallery specific stylesheet.
- Fixed issue with CRG feedback not functioning with Freewall (Masonry) layout
- Fixed issue with the feedback form not showing the image title when a metadata title had not been set
- Fixed issue with feedback submission form inheriting title of the last photo client had selected for feedback
- Fixed issue of submit and logout modals including the background of the last photo client had selected for feedback
- Various minor bug fixes.

To update to from CRG 6.0.0 or 6.0.1 to CRG 6.0.2:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom
- Replace the **ttg-be/crg/application** directory
- Replace the **ttg-be/crg/lib** directory
- Log in as admin to **ttg-be/crg/admin**

v6.0.1 (2015-01-22)

- Fixes an issue where CRG was looking for a Publisher configuration file
- Fixes an issue in CRG galleries not loading correctly unless PHPlugins had been enabled
- Fixes an issue in CRG galleries not redirecting to mobile correctly unless PHPlugins had been enabled

To update to from CRG 6.0.0 to CRG 6.0.1:

- Replace the **CE4-CRG.Irwebengine**, and restart Lightroom

The following steps are optional. This only serves to increment the reported version number to 6.0.1:

- Replace the **ttg-be/crg/application** directory
- Log in as admin to **ttg-be/crg/admin**

v6.0.0 (2015-01-21)

- Public release.
