

CE4 TTG BE Changelog

v2.0.5a (2016-03-19)

- Updates Parsedown.php for PHP 7 compatibility

To update to 2.0.5a from TTG BE 2.0.5:

- Replace **ttg-be/framework/lib/Parsedown.php** with the file in the included CE4-TTG-BE-205.zip file

To update to from earlier versions:

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause ALL TTG data and settings to be LOST!

It is not necessary to update TTG BE if your site is functioning correctly!

- Replace **ttg-be/admin** with the files in the included CE4-TTG-BE-205.zip file
- Replace **ttg-be/framework** with the files in the included CE4-TTG-BE-205.zip file
- Log in as **admin to ttg-be/admin**

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause ALL TTG data and settings to be LOST!

v2.0.5 (2016-01-04)

- Suppresses errors raised with the “@” suppression symbol. This improves compatibility with Wordpress.

To update to TTG BE 2.0.5:

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause ALL TTG data and settings to be LOST!

It is not necessary to update TTG BE if your site is functioning correctly!

- Replace **ttg-be/admin** with the files in the included CE4-TTG-BE-205.zip file
- Replace **ttg-be/framework** with the files in the included CE4-TTG-BE-205.zip file
- Log in as **admin to ttg-be/admin**

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause ALL TTG data and settings to be LOST!

v2.0.4 (2015-08-23)

- Added file permissions settings to admin settings
- Added Markdown support to admin settings
- Added exceptions to using local sessions for gridhost and netregistry hosts
- Explicitly set email encoding to base64
- Improved handling of URL creation function to use HTTP_HOST where available
- Fixed issue with port number being included with HTTP_HOST
- Added checks and error messages for PHP version < 5 and missing PDO and SQLite module
- Added quick link to admin settings on Dashboard
- Added checks before defining THICK_LINE and THIN_LINE

To update to TTG BE 2.0.4:

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause ALL TTG data and settings to be LOST!

- Replace **ttg-be/admin** and **ttg-be/framework** with the files in the included CE4-TTG-BE-203.zip file
- Log in as **admin to ttg-be/admin**

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause ALL TTG data and settings to be LOST!

v2.0.3 (2015-01-20)

- Rewritten session handling
- Moves sessions from the default location for host to ttg-be/data/sessions
- Fixes an issue in creating URLs for sites using https protocol
- Fixes an issue in creating URLs for sites using non-standard ports

To update to TTG BE 2.0.3:

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause ALL TTG data and settings to be LOST!

- Replace **ttg-be/admin** and **ttg-be/framework** with the files in the included CE4-TTG-BE-203.zip file
- Copy **ttg-be/templates/gallery/crg-default** to **ttg-be/templates/gallery** on your server
- Log in as **admin to ttg-be/admin**

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause ALL TTG data and settings to be LOST!

v2.0.2 (2014-08-15)

- Changes the reply-to field for contact emails to be the email address of the customer
- Change the from name of emails to the company name as set in TTG BE setting
- Fixed an issue with resolved URLs including double-slashes in some cases
- Changed the handling of version compatibility between TTG BE and dependent applications, so that a minimum version is required rather than an exact match
- Renamed the shipped .htaccess filename to htaccess, to avoid issues with FTP applications that do not handle hidden files
- Improved the handling of listing templates for applications that require this
- Updated the scaffolding JavaScript file to include the latest changes
- Updated the default Cart template to use the latest layout changes

To update to TTG BE 2.0.2:

- Replace **ttg-be/admin** and **ttg-be/framework** with the files in the included CE4-TTG-BE-202.zip file
- Log in as admin to **ttg-be/admin**

IMPORTANT NOTE : Do NOT replace the entire ttg-be directory! Doing so will cause publisher to lose ALL data and settings!

v2.0.1 (2014-07-16)

- Public release.
